# DRAFT program booklet

Connekt Study Trip Lisbon 2023
22-24 May
ITS Congress Europe

Lisbon is the capital of Portugal and the country's biggest city, located on the estuary of the Tagus river. It is continental Europe's westernmost capital. Around 3 million people live in the Lisbon region, with around 600 thousand living in the capital itself. It is one of the major economic centres in Europe, with a growing financial sector and one of the largest container ports on Europe's Atlantic coast. The motorway network and the high-speed rail system of Alfa Pendular link the main cities of Portugal to Lisbon. The Lisbon region has a higher GDP PPP per capita than any other region in Portugal.

Lx Factory

It is in the year of 1846 that the Company of Wiring and Fabricos Lisbonense, one of the most important factory complexes of Lisbon, settles in Alcântara. This industrial area of 23,000m2 was in subsequent years, occupied by the Industrial Company of Portugal and Colonies, Typography Anuário Comercial de Portugal and Gráfica Mirandela.

A fraction of a city that has remained hidden for years is now returned to the city in the form of LXFACTORY. A creative island occupied by companies and industry professionals has also been the scene of a diverse range of events in the fields of fashion, advertising, communication, multimedia, art, architecture, music, etc. generating a dynamic that has attracted countless visitors to re-discover this area of Alcântara. In LXF, at every step you live the industrial environment. A factory of experiences where it becomes possible to intervene, think, produce, present ideas and products in a place that belongs to everyone, for everyone.
