

Think ***ahead*** Work ***together***

This year, Connekt is celebrating its 25th anniversary. Founded on 28 January 2000, Connekt has grown from a knowledge institute into a national ecosystem for impact and innovation in mobility and logistics, and into an internationally recognised organisation.

Connekt is the leading independent non-profit network in the Netherlands, dedicated to accelerate innovation in sustainable mobility and logistics. We bring together companies, governments, and knowledge institutions to shape future-ready solutions.

Our mission

- Connecting people to collaborate on societal challenges.
- Sharing knowledge, trends, and expertise.
- Initiating and managing projects that make mobility cleaner, smarter, and more efficient.
- Realising impact in sustainable mobility and logistics.

With a strong focus on collaboration and practical implementation, we turn ideas into real societal impact.

Why Join the Connekt Network?

Becoming part of Connekt means joining a powerful, action-oriented community where ideas grow into solutions. You get access to a neutral platform that connects the right people and helps overcome shared challenges.

As a member, you benefit from:

- A central hub for knowledge and collaboration.
- Early insights into key developments and trends.
- A trusted connector to accelerate your initiatives.
- Collective strength: achieve more together.

Together, we create greater impact.

How we make a difference

Smart Mobility Embassy

The gateway to the world

The Smart Mobility Embassy is Connekt's international gateway. It connects members with global partners to exchange knowledge, explore new markets, and promote Dutch expertise in sustainable mobility.

Key activities include:

- Facilitating international collaborations.
- Organizing trade missions, study trips, and webinars.
- Strengthening global visibility of Dutch mobility solutions.
- Handling worldwide inquiries with our partner network.

The Smart Mobility Embassy acts as a central hub for Connekt members to scale their impact internationally.

Lean & Green

100% Collaboration 0% Emission

Lean & Green is the leading carbon reduction programme for logistics. Lean & Green helps companies reduce CO₂ emissions with measurable results and recognized certification. Participants follow a clear 5-Star Framework and annually report their progress.

What you gain:

- Recognition for verified CO₂ reductions.
- Access to a forward-thinking logistics network.
- Support to develop and track your reduction plan.
- Shared insights and success stories from peers.

Join the movement towards cleaner, smarter logistics.

Initiatives and Programmes

In addition to organising activities with and for its members, Connekt develops and supports innovative programmes on behalf of various ministries - all aimed at creating a smarter and more sustainable future for mobility and logistics.
